Our Services

Electric, Hybrid, and gas-Powered Vehicle Diagnostics and Repairs
Our platform offers the solution to electric car who seek certified garage specialists who excel in diagnosing and repairing various mechanical issues. Whether it's a mysterious check engine light, strange noises, or performance problems, our professionals have the expertise to identify and fix issues efficiently.

Fleet Management
Streamline your fleet's maintenance and repair needs with our dedicated fleet management solutions and save you maintenance data for future comparison from different vendors.

Cost Effective Spare Parts:
We have collaborated with over 30 reputable spare parts shops including our own shop and through our platform, you are able to get transparent quotation from different vendors for your comparison, we fully take responsibility for the quality and warrantee of the product.

Preventive Maintenance
We carry out preventive maintenance through our vetted and qualified mechanics, job card will be issued for the suggested area of repairs

Emergency Roadside Assistance
We provide 24/7 emergency assistance to get you back on the road quickly and safely. We operate in major highways in Nairobi and its environment.

Carbon Footprint tracking
Auto Global Connect is proud to introduce a groundbreaking feature – carbon footprint tracking for your vehicle. Our advanced record-keeping system allows you to monitor and assess the carbon emissions associated with your vehicle's day-to-day operations, maintenance, and repairs. You are taking a step towards a more sustainable and environmentally conscious driving experience by choosing us.

ESG Integration
As a company committed to ESG principles, we prioritize Environmental sustainability, social responsibility, and sound Governance practices. Our mechanics undergo continuous training to stay updated on eco-friendly techniques, and we actively engage in community initiatives to give back and make a positive social impact. With transparent business practices, we uphold the highest standards of Governance, ensuring your trust in our services.

Our Mission

Our mission is to deliver superior repair and maintenance services by leveraging our technical expertise, innovative solutions, and dedication to exceptional customer service. We aim to ensure the seamless functioning of our clients' assets, providing timely and efficient solutions that exceed expectations and contribute to their operations' overall success and longevity.

Our Vision

Striving to be the foremost provider of efficient, reliable, and innovative repair and maintenance solutions, fostering sustainable and seamless operations for all our clients while setting the industry standard for excellence and customer satisfaction.
